Keep Fremont Housed
Rental Assistance Program

TESTIMONIALS

The City's Keep Fremont Housed program is a wonderful program. I had no job due to COVID-19, and I missed my rent and utility payments. I heard about this program from my landlord. Fortunately, I applied and got approved. **My family and I are so glad for this helpful program** that takes care of people in need.

I worked at a small business in Fremont. Due to the pandemic, everything was shut down. I got behind on my rent and utilities. When I heard about Keep Fremont Housed, I applied and was approved. **My landlord was paid in full and so were my utility bills.** I was so grateful to have these bills caught up. I**t was a huge weight lifted off my shoulders.**

Before COVID-19, I was doing okay as an independent contractor. But when the lockdown hit, I lost both of my client accounts and suddenly had no income. My family and I started to have credit card debt as bills piled up, and we fell behind on our rent. **We found the Keep Fremont Housed program and were approved for rent assistance. We are sincerely thankful and feel relieved for this blessing!**

Before the pandemic, I was an executive at a startup. As the pandemic began, I was furloughed from my company. I had never been unemployed for more than 3 months and started looking for a job right away. I discovered that the job market came to a halt. I could not find a job. Unemployment benefits helped, but they were a fraction of my normal earnings. I continued to pay full rent until I exhausted all of my savings. I researched state and federal programs and found Keep Fremont Housed. **My application was approved, and my landlord was paid in full. I cannot begin to express the relief I felt.** I have been in my home 16 years and was very worried.

The City of Fremont team helped us obtain the necessary resources to help us pay our bills and remain in our home! We will be forever grateful for their support! **We highly recommend this program to anyone in a similar situation.**
